

NOT FAR FROM HOME

Joseph Habedank, Michael Farren, Wayne Haun

I feel just like a stranger here
Everything around me
Is chaos, pain, and fear
But I'm holding to a different hope
A promise Heaven's waiting
Down this long and winding road

**I'm not far from home
So I keep moving on
Even though I've never been before
The land my heart is aching for
Is calling me
Soon and very soon I'll see
The glory of the place where I belong
I'm not far from home**

A city of such perfect peace
Where sorrow never enters
And love will never leave
Greeted at the gates with the Father's smile
When I finally see His face
It'll be worth every mile
